

## Rules for Shared Goalie Positions 2018-19 Season

- Each person in a goalie pair commits to playing goal one game per week.
- Goalies will try their best to cover both games every week. For example, if Kim is only able to play one game that week (e.g., Tues), and Andrea is able to play two games (e.g., Tues and Sat), Kim would play goal in the one game that she is able to play (Tues), and Andrea would play goal on Saturday.
- If one in the pair could not play goal that week, a goalie sub can be called to cover their game.
- Both players cannot play out in the same game.
- If one of the players would like to become the full-time goalie or would like to play more than 50% of the games in goal, that would be okay with agreement from their goalie partner.

In addition to the second bullet above, here are three more scenarios to illustrate the rules:

- If Player A is in goal on Tues/Thurs, then Player B plays goal on Sat/Sun. If Player A cannot make the Sat/Sun game, Player B must still play goal.
- If Player A is in goal on Tues/Thurs, and Player B is not able to play on Sat/Sun, then a goalie sub can be called on Sat/Sun so that Player A can play out.
- If Player A plays goal on Tues/Thurs and Sat/Sun, then Player B can play out both games (and vice versa).
